

Colourful, exciting artwork to transform office environments

EyeSpace

Product information

EyeSpace Triple Screen

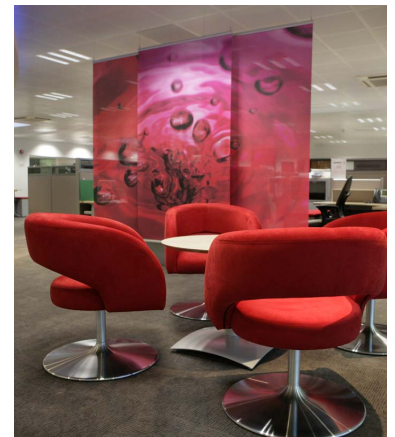

Specification valid from 19th July 2010
until further notice.

An eye-catching, elegant and cost-effective solution for office dividers, screens and partitions.

The EyeSpace Triple Screen allows temporary or permanent sub-divisions of space in a way that introduces exciting, colourful artwork into the office environment. The three screens in each set can be mounted end-to-end, or can be overlapped to create additional visual interest.

Artwork images are printed onto fabric in brilliant colour and suspended floor-to-ceiling using slimline aluminium profiles at the top and bottom. An easy-to-install clutch and cable system allows these to be fixed to solid or suspended ceilings while flexible fixings at the base keep the screen in tension.

Choose online from our large selection of exciting images.

EyeSpace Triple Screen

Outstanding features that make EyeSpace Triple Screen the ideal way to create dividers and partitions within any workspace.

- A wide range of bright, colourful images - with our online selection and design facility you can create the ideal artwork for your office.
- Unlimited image and product combinations - find the right size and format for every location.
- Double-sided printing onto high quality fabric - gives a beautiful textured finish and radiant colours.
- Slimline aluminium suspension system - simple and quick to install, and available in a wide range of sizes.
- Interchangeable printed fabric artwork - allows images to be readily changed whenever you need a new look - just fit in a new panel without having to remove or replace the fittings.

Printing: Graphic image printed onto mesh 3124 fabric, solvent inkjet printed both sides (reverse image flipped). Banner grip edge attached top and bottom. Fire rating is M1.

Profiles: Top and bottom profiles in silver anodised aluminium, each with one centrally positioned locking screw and hex key. Bespoke sizes also available.

Fixings: Floor to ceiling tensioned. Top rail fitted with in-line clutch cable grips and 1500mm lengths of stainless steel cable with soft-eye one end only. Bottom rail with 100mm lengths of elastic cord and screw floor fixings. 2no. 800mm lengths of 25mm x 25mm x 16swg aluminium tube included for mounting within suspended ceiling. A full installation service is available on request.

Delivery free to all UK mainland addresses.
